

## **4175 STUDENTS ENTERED SCHOOL ON SEPTEMBER 15TH IN THE MUNICIPALITY OF DIMITROVGRAD**

Thursday, 16 September 2021

On September 15, 2021 in the municipality of Dimitrovgrad the school threshold was crossed by 4175 students in 199 classes.

To avoid the accumulation of people in the schoolyards, the start of the new school year in Dimitrovgrad will be held only in the presence of first graders and their parents, as the mayor Ivo Dimov and the principals of the schools agreeded at a meeting.

They recommended short celebrations and a limited number of attendees. The organization complies with the measures and instructions of the Ministry of Education and Science.

401 are first graders in Dimitrovgrad municipality, divided into 21 classes. Kindergartens and nursery groups will accept 1342 children.

---

The opening of the new 2021/2022 school year will be given with the celebration in PELS "Ivan Bogorov " at 9.00.

Congratulatory addresses for the beginning of the school year by the Mayor Ivo Dimov:

"Dear teachers,

Dear parents,

Dear students,

Once again, we have the opening of the new school year in the conditions of restrictive measures for the safety and health of all residents. However, all the hope and anticipation of the new 2021/2022 school year overwhelms us with excitement on its doorstep.

I am sure that we all realize that nothing can replace contact and communication in the school community between teachers and children in the new 2021/2022.

I turn mostly to parents and school boards:

Be understanding, patient and support the efforts of school management to protect health of our children.

It is new, it is difficult, but together everything is surmountable.

At the beginning of this school year, I would like it to be present with the school noise and smiles. I wish the first graders to discover new knowledges with curiosity.

Good luck!"
