

THE LIGHTS OF THE BIGGEST LIVING CHRISTMAS TREE IN EUROPE WERE TURNED UP

Saturday, 2 December 2023

The lights of the largest live Christmas tree - the 32-meter fir on the square in Dimitrovgrad - were lit up by the good St Nick. Santa Claus arrived in a vintage red car. On the square, he was met by the mayor of the city, Mr Dimov, who escorted him to the stage. Children and adults crowded in front of the beautiful Christmas corners at the Christmas bazaar. The workers of the city's social services, together with the elves helped the children to make their own Christmas decorations and toys for the upcoming holidays. In the folk corners, arranged by the community centers, the children were showed how to make authentic cheeses. In the Post Office of Santa Claus, the children wrote their letters of wishes. The attractive Photo frame, the Bakery with a variety of delicious Christmas sweets, and the Inn with delicious food and wine, attracted the citizens. The unique festive atmosphere was completed by the fire show "Masters of Dreams", Galaxico Dance Center, and the

performances by Milen Stoykov and Dobi Duleva. The spirit of holiday season is again in Dimitrovgrad.
