

DIMITROVGRAD MUNICIPALITY MODERNIZED FIVE MORE KINDERGARTENS

Friday, 10 September 2021

Dimitrovgrad Municipality continues to improve the interior design of the local kindergartens. One of the priorities of the mayor is the investments in modernization and renovation of the material base of the kindergartens. The repair works are aimed at refreshing living rooms, bedrooms and replacing equipment in the kitchens. This year, the beds, wardrobes and lockers in five kindergartens have been changed , as well as the floor coverings of the premises. 324 children will benefit from the new equipment. BGN 80000 from the municipal budget is for replacement of the furniture, and BGN 40000 has been invested in renovation of kitchen equipment.

On the territory of Dimitrovgrad Municipality, there are 7 kindergartens with 1400 children, located in 18 buildings. The meals are the same everywhere, but the food is being prepared on site in the kindergarten. 2 children's kitchens for the little ones serve 120 toddlers with healthy food.

Dimitrovgrad Municipality will continue to invest in creating a modern, safe and interactive educational environment for all.
