

SPRAYING AGAINST TICKS

Monday, 22 May 2023

The Municipality of Dimitrovgrad plans to carry out the first stage of spraying against ticks – on the determined dates: **23.05.2023 (Tuesday) and 24.05.2023 (Wednesday)**.

Signs, which will inform the citizens about the day of spraying and the quarantine period, will be placed in the lawns and in the yards of the educational institutions.

The spraying schedule is as follows:

23/05/2023 (Tuesday) - inter-block spaces, city parks, stadiums, and cemetery parks.

24/05/2023 (Wednesday) - yards of kindergartens and educational institutions.

In case of unfavorable weather conditions, the schedule may change.

**Service provider - "PEST CORRECT" EOOD, PLOVDIV - BANDIT 10
EB with a quarantine period of 24 hours.**
