ОКОЛНА СРЕДА

*Проект на община Димитровград
BG16M1OP002-5.003-0005-C01
„Подобряване качеството на атмосферния въздух
в община Димитровград
чрез подмяна на отоплителни устройства
на твърдо гориво
с алтернативни форми на отопление“
по Оперативна програма „Околна среда 2014–2020 г.“*

The first call for applications under the “Improvement of Atmospheric Air Quality in the Municipality of Dimitrovgrad by Replacing Solid Fuel Heaters” Project has ended

Monday, 24 August 2020

On July 31, 2020 ended the first call for applications for the replacement of heating wood and coal installations with environmentally friendly ones. All submitted application documents were reviewed and evaluated according to the announced methodology. 1414 applications were approved for individual installations and devices and 14 for collective ones. The lists of approved candidates by their unique numbers are placed in a prominent place at the office of the Project, located at Tsar Simeon Street No 5. They are also published in the file attached below.

The Municipality of Dimitrovgrad thanks all the applied and approved households and announces that in the beginning of October the second call for applications for replacement of heating installations of wood and coal with environmentally friendly ones will be published. The conditions, as well as all the necessary information, again will be announced on the official website of the Municipality of Dimitrovgrad and also through the local media channels.
