

THE SECOND MOBILE POINT FOR VACCINATION AGAINST COVID-19 WILL BE SITUATED AT THE SUNDAY MARKET

Thursday, 7 October 2021

For the second time, a mobile vaccination station against Covid-19 will be located on the Dimitrovgrad Sunday Market. It will work in the parking lot in front of Mladost Sports Hall during the weekend (October 9-10), from 8:30 to 13:00 h. An outsourced immunization team of RHI-Haskovo will carry out the vaccination, consulting the citizens.

The initiative aims to provide rapid vaccination against COVID-19. The vaccinating period is in line with the first needle in mid-September in the same point.

In the mobile vaccination station, people will be vaccinated against COVID-19 with a vaccine of their choice - Pfizer / BioNtech, AstraZeneka, Moderna or Janssen / Johnson & Johnson, available at the mobile station.
